PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with 2 years at Pakistan Agriculture Research, specialising in secure role based platforms and automated data pipelines. Cut API response time by 40% through REST API development and query optimisation, and replaced manual data entry with scheduled Python scrapers. Works directly with product teams and clients on requirements, demos and releases.

SKILLS

Core Stack: React.js, Next.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, REST APIs
Backend and Data: MySQL, Redis, JWT, RBAC, Python
Frontend: Redux, Context API, HTML5, CSS3, Tailwind CSS, MUI, ShadCN, Bootstrap
Tools and Delivery: Git, GitHub Actions CI/CD, VPS deployment, Postman, Figma, Jest, ESLint, Prettier
Cloud: GCP and AWS
Soft Skills: Client Communication, Problem Solving, Teamwork, Requirement Gathering
AI Assisted Tools: Codex, Claude Code, GitHub Copilot, ChatGPT, Cursor, Windsurf

WORK EXPERIENCE

Full Stack Developer (MERN)

Jun 2024 – Present

[Pakistan Agriculture Research \(PAR\)](#)

Karachi, Pakistan

- Lead a role based access system built from scratch, with four levels (user, admin, super_admin, administrator) controlling data access across the platform.
- Implement secure sessions with JWT in httpOnly cookies and Redis for session invalidation.
- Build and integrate REST APIs and optimize backend queries, improving response time by 50%
- Turn Figma designs into responsive, accessible React components, reducing development time by 40%.
- Run product demos, gather requirements and work with product and design teams in Agile sprints.
- Run CI/CD on GitHub Actions with VPS deployment, cutting release time from 2 hours to 5 minutes.
- Review peers' code and maintain Git workflows, reducing deployment issues by 80%.

PROJECTS

PAR Agri Data Portal

Jun 2024 – Present

- Build backend APIs for dynamic data filtering and role based content on Node.js and MongoDB.
- Maintain an agri data website and data portal with modern UI, increasing organic traffic by 50%.
- Integrate Mixpanel for behavioral analytics and ApexCharts for real time market data charts.

PAR Admin Portal

Jun 2024 – Present

- Develop an RBAC admin panel for managing data and operations, improving team efficiency by 50%.
- Design secure APIs for data management on MongoDB and Node.js/Express.js.
- Automate data collection with Python scrapers and node cron, removing manual entry.

News Bulletin Automation

Jan 2026 – Feb 2026

- Built an automated news pipeline collecting articles from multiple sources and summarizing key facts.
- Condensed content by 60 to 70% into publication-ready bulletins, saving 3+ hours of manual editorial work per cycle.
- Integrated Amazon SES for scheduled delivery to 5,000+ subscribers while keeping editorial accuracy.

EDUCATION

Bachelor of Science, Computer Science

DHA Suffa University · Karachi, Pakistan

Sep 2019 – Feb 2024
